## **Purple Platypus Assists Monarch, Inc. Advance in the Aircraft Systems Industry**

**Purple Platypus will participate in the Ribbon Cutting Ceremony for Monarch, Inc.: marking Monarch, Inc.'s new name, new 3D technologies and new headquarters in Ridgecrest, CA**

**IRVINE, California – Purple Platypus, Inc.** announced that the company will be attending Monarch, Inc. (formerly, CalUAS) Ribbon Cutting ceremony in Ridgecrest, CA unveiling Monarch, Inc.'s new headquarters on November 25, 2014.

Monarch, Inc. has invested in advancing their technology developments by adding a state-of-the-art Stratasys Fortus 400 and Roland MDX-540A purchased through Purple Platypus. Purple Platypus will be showcasing milled and 3D printed parts demonstrating the wide range capabilities of both technologies. A number of recognized city and state officials are expected to attend.

### **About Purple Platypus**

Purple Platypus, located in Orange County Southern California, specializes and is a preferred distributor of Stratasys 3D Printers which features Polyjet and FDM technologies. With an extensive product line and a committed, knowledgeable team of industry experts, Purple Platypus is able to provide businesses the technology needed to bring their innovative designs and ideas to life. Purple Platypus also specializes in Roland benchtop milling machines and SpaceClaim 3D Direct Modeling Software.
