Remake Your World And Win \$2500

Have you ever thought, I can make that better? Here's your chance to prove it. Invent or re-engineer something that improves on an existing solution, and enter your innovation into the 16th annual Extreme Redesign Challenge. Don't have access to a 3D printer? No problem. Submit your STL file and a written description at www.grabcad.com/challenges/active.

Deadline To Enter: April 24, 2020

Categories Include

Engineering: Secondary (middle/high schools) | Engineering: Post-Secondary (colleges/universities) | Art, Jewelry and Architecture (all students)

Prizes

Impress our panel of judges with a creative, mechanically sound and realistically achievable entry, and you could win these prizes:

Everyone

Receive a sheet of free tech tattoo stickers for entering.

Top 10

Receive a 3D printed model of your design and a Stratasys apparel item valued at up to \$50.

2nd Place

Receive a \$1,000 scholarship.

1st Place

Receive a \$2,500 scholarship. Plus, your instructor will get a demo 3D printer for limited-time classroom use.

Finalists and Winners will be announced June 2020.
